

# CAREER DAY 2025

Remember to follow us on social media

SUMINGENIUM

SUMINGENIUM

SUMINGENIUM

Sum Ingenium is the student association for engineering students at USN, campus Porsgrunn, and we are proud to host the annual Career Day.

The goal of Career Day is to create a meeting place for students and potential employers, helping them get to know each other better while ensuring an engaging and socially enriching study experience for the technology students on campus.

We would like to thank all the participating companies for supporting our efforts to provide students with an enriching and exciting study experience. A special thanks goes to everyone present today, as well as a big thank you to USN for giving us the opportunity to organize this Career Day.

We have color-coded the companies to make it easier for you as a student to identify which companies are interested in your field of study.

However, we encourage you to talk to all the companies you find interesting

-  IA
-  Mechanical
-  Planning and Infra
-  Structural and Design
-  Power Engineering
-  Chemistry
-  Computer Science
-  Master
-  PhD
